## Investor Update

 Second Quarter FY19
## Forward-looking Statements / Non-GAAP

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based upon management's current expectations and are subject to various risks and uncertainties including, but not limited to: The ability of the Company to stabilize and grow revenues; The acceptance of, and renewal rates for the All Access Pass; The ability of the Company to hire productive sales professionals; General economic conditions; Competition in the Company's targeted marketplace; Market acceptance of new products or services and marketing strategies; Changes in the Company's market share; Changes in the size of the overall market for the Company's products; Changes in the training and spending policies of the Company's clients, and other factors identified and discussed in the Company's most recent Annual Report on Form 10-K and other periodic reports filed with the Securities and Exchange Commission. Many of these conditions are beyond our control or influence, any one of which may cause future results to differ materially from the Company's current expectations, and there can be no assurance the Company's actual future performance will meet management's expectations. These forward-looking statements are based on management's current expectations and we undertake no obligation to update or revise these forward-looking statements to reflect events or circumstances after the date of today's presentation, except as required by law.

The Securities and Exchange Commission's Regulation $G$ applies to any public disclosure or release of material information that includes a non-GAAP financial measure. In the event of such a disclosure or release, Regulation $G$ requires: (i) the presentation of the most directly comparable financial measure calculated and presented in accordance with GAAP and (ii) a reconciliation of the differences between the non-GAAP financial measure presented and the most directly comparable financial measure calculated and presented in accordance with GAAP. The required presentations and reconciliations are contained herein and can be found at our website at www.franklincovey.com.

FranklinCovey uses the non-GAAP financial measure "earnings before interest, taxes, depreciation and amortization" ("EBITDA") to assess the operating results and effectiveness of the Company's ongoing training and consulting business. In addition, the Company also uses the non-GAAP financial measure "Adjusted EBITDA" as a representation of the Company's operating performance. Adjusted EBITDA is defined as pre-tax net income (loss), plus depreciation and amortization, net interest income (expense), and special charges, such as the gain on the sale of the Japan Products division in Fiscal 2010, restructuring costs, and asset impairment changes. The Company finds these non-GAAP financial measures to be useful when evaluating its operating and financial performance. These nonGAAP financial measures may not be comparable to similar measures used by other companies and should not be used as a substitute for revenue, net income (loss) or other GAAP operating measures.

## Expectations

## Three Takeaways

1. We achieved strong second quarter results, which were ahead of our expectations.
2. Our subscription-based model is driving our overall growth, attractive subscription metrics and compelling economics.
3. We are continuing to aggressively expand our sales force to take advantage of an extraordinary sales force unit expansion opportunity.

## Guidance

## Appendix

## Other Information

## Other Income Statement Information:

- Depreciation: \$5.2M in FY2018, expected to total approximately \$6.7M in FY2019.
- Amortization: \$5.4M in FY2018, expected to total approximately \$5.0M in FY2019.
- Net Interest and Discount: \$2.2M in FY2018, expected to total approximately \$2.6M in FY2019.
- Share-based Compensation, Impaired Assets, Restructuring, ERP Implementation, Accrued Earnout and Other: totaling \$4.7M in FY2018; Share-Based Compensation, Impaired Assets, ERP Implementation, Accrued Earnout, Acquisition Costs and Other, expected to total approximately \$7.5M in FY2019.
- Effective Tax Rate: Our normalized affective tax rate is expected to be $26 \%$ to $28 \%$ in FY19 before effect of permanent book/tax differences (undetermined) and benefit of re-measuring deferred taxes. Therefore, the tax rate could be a significantly different percentage, and we are not projecting an FY19 effective rate.

## Other Information:

- Capital Expenditures: \$6.5M in FY2018, expected to total approximately $\$ 5.5 \mathrm{M}$ to $\$ 6.5 \mathrm{M}$ in FY 2019 .
- Capitalized Curriculum excluding acquired content: \$3.0M in FY2018, expected to total approximately $\$ 5.5 \mathrm{M}$ to $\$ 6.0 \mathrm{M}$ in FY2019, reflecting localization of AAP content, AAP content development, and Education content development.
- Share Count: $13,964 \mathrm{~K}$ shares outstanding as of March 31, 2019. The Company's share count may increase due to the vesting of share-based awards and purchased by Employees under our Employee Stock Purchase Plan and decrease due to the company buying back shares under its authorized share buy-back program.
- Number of salespersons: 214 on August 31, 2018; 230 on February 28, 2019; expected to be 234 on August 31, 2019.
- Impact of FX in Q2 FY19: decrease to Sales \$.7M (decrease \$1.1M YTD); decrease to Adjusted EBITDA \$.5M (decrease \$.6M YTD).
- Impact of implementing Topic 606: increased sales \$.5M in Q2 FY19, and increased sales \$1.5M YTD.

All the above-mentioned estimates are subject to change, perhaps material change, based on actual events and circumstances in the year.

Notes:

- We expect Net Cash Generated in FY2019 to fall within the range of $\$ 18$ million to $\$ 22$ million.
- Net Cash Generated is a measure used by management to monitor the amount of available cash generated by the operations of the company. Net Cash Generated includes the items listed above and excludes other cash activities shown on the Consolidated Statements of Cash Flows, such as cash paid for taxes, acquisitions, changes in working capital, other SG\&A, and payments on term notes and financing obligations.
- Please refer to the Appendix for the definition of Adjusted EBITDA and for the reconciliation of Adjusted EBITDA to Net Income.
- Please also refer to the Condensed Consolidated Statements of Cash Flows for the current quarter.

## Definitions

- "Deferred Revenue" primarily consists of billings or payments received in advance of revenue recognition from subscription services and is recognized as the revenue recognition criteria are met. The Company generally invoices customers in annual installments upon execution of a contract. The deferred revenue balance is influenced by several factors, including seasonality, the compounding effects of renewals, contract duration, invoice timing and contract size. When Management refers to Deferred Revenue or the change in Deferred Revenue it is primarily referring to the subscription related portion and not the customer deposits and other portions.
- "Unbilled Deferred Revenue" is an operational measure that represents future billings under our non-cancelable subscription agreements that have not been invoiced and, accordingly are not recorded in our recognized revenue or deferred revenue.
- "Operating SG\&A" is non-GAAP financial measure. It generally excludes stock-based compensation, changes to contingent earn-out liability and unusual or one-time charges. See the Reconciliation of Net Income or Loss to Adjusted EBITDA in additional financial information.
- "Contracts Signed" is the sum of Invoiced Amounts plus the Change in Unbilled Deferred Revenue (not recorded on the balance sheet) and, as the term reflects represents, the total amount of contracts with customers that were entered into during the period.
- "Total NPV of Future All Access Pass Revenue" is an operational measure that represents the Net Present Value of future All Access Pass and related revenue. For this calculation we use an annual revenue retention rate of $90 \%$ and a discount rate of $10 \%$.

## Definitions

- "Adjusted EBITDA" (earnings before interest, income taxes, depreciation, amortization, stock-based compensation, and certain other items) is a non-GAAP financial measure that the Company believes is useful to investors in evaluating its results. A reconciliation of "Adjusted EBITDA," to consolidated net income (loss), the most comparable GAAP financial measure is provided within this presentation. The Company references this non-GAAP financial measure in its decision making because it provides supplemental information that facilitates consistent internal comparisons to the historical operating performance of prior periods and the Company believes it provides investors with greater transparency to evaluate operational activities and financial results. We are unable to provide a reconciliation of forward-looking estimates of non-GAAP Adjusted EBITDA to GAAP measures because certain information needed to make a reasonable forward-looking estimate is difficult to estimate and dependent on future events which may be uncertain or out of our control, including the amount of AAP contracts invoiced, the number of AAP contracts that are renewed, necessary costs to deliver our offerings such as unanticipated content development costs, and other potential variables. Accordingly, a reconciliation is not available without unreasonable effort.
- "Invoiced Amounts" is the sum of reported Net Sales plus the change in Deferred Revenue reported on the balance sheet (a portion of which is recorded as a currant liability and a portion as a long-term liability and represents the amount of billings during the period). We typically invoice our customers annually upon execution of the contract or subscription renewals. Our clients frequently prepay for products and services, which prepayment is included in amounts invoiced and corresponding Deferred Revenue.
- Client Partner Ramp is the expected amount of invoiced amounts the Company expects its client partners to generate based upon the length of time the client partner has been in a sales role. This metric measures client partners who are currently employed by the Company and does not subtract any accounts that are transitioned to a client partner from a previous client partner.
