Item 7.01 Regulation FD Disclosure

On September 19, 2008, Franklin Covey Co. (the Company) announced that it has been awarded four new training contracts with both private and governmental organizations that are expected to be worth \$4.5 million in new sales. The Company expects to recognize the revenue from these new contracts throughout its fiscal year ending August 31, 2009.

The Company affirms that as a result of its current restructuring activities, and with reasonable growth from operations, after a restructuring period expected to last slightly more than one year, it expects to achieve operating income levels comparable to the period preceding the sale of its Consumer Solutions Business Unit. Following the successful completion of its recent modified Dutch Auction tender offer, the Company expects to achieve these comparable levels of operating income with substantially fewer common shares outstanding, which would improve the Company's reported earnings per share in those periods.

This report contains forward-looking statements related to, among other things, the successful delivery of training services, expected future revenue, expected operating income levels, and the expected number of common shares to be outstanding.
